INTRODUCTION

Coventry and Warwickshire Chamber of Commerce Training **CWCCT** takes its responsibilities for safeguarding very seriously. In accordance with the Counter Terrorism and Security Act 2015 **CWCCT** has a responsibility to prevent people from being drawn into terrorism. This strategy has been developed to provide a framework for managing this responsibility.

The current threat from terrorism and extremism in the United Kingdom is severe and poses a threat to national security which may involve the exploitation of vulnerable people, including children and young people. **CWCCT's** policy provides guidance with regard to safeguarding young people who may be vulnerable to the messages of extremism in conjunction with associated policies including Safeguarding and Equality and Diversity. It also provides details of the values upheld by **CWCCT** and demonstrates our commitment to Channel, the multi-agency programme which works to provide support to people at risk of radicalisation and extremism.

Radicalisation is defined as the process by which people come to support terrorism and extremism and, in some cases, to then participate in terrorist groups.

Extremism is vocal or active opposition to fundamental British values, including democracy, the rule of law and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism, calls for the death of members of our armed forces, whether in this country or overseas (HM Government Prevent Strategy 2011)

EQUALITY, DIVERSITY & COMMUNITY COHESION

CWCCT aims to guide its learners to understand others, to promote common British values and respect diversity. We take our responsibility for preparing young people to establish a fulfilling and rewarding lifestyle that will enable them to uphold human rights and develop the skills needed to participate in work and communities of a modern British society.

CWCCT'S aim is to ensure learners are equipped with the knowledge and confidence to contribute to a society with a common vision and sense of belonging by all.

LEADERSHIP AND VALUES

Our leadership and values are to provide an environment and culture upholding core British values, demonstrating a shared commitment to the responsibility and wellbeing of all students, staff and visitors which promotes respect, equality and diversity and understanding for people of all faiths, races and cultures with respect and tolerance. This will be achieved through:

- promoting organisational values, commitment, and codes of practice within learning and partnership working
- developing staff knowledge and learners understanding of PREVENT and how they contribute to a safer society
- engage with schools, local authorities, police and other agencies

PROMOTION AND COMMITMENT

C&W Chamber Training will promote this policy through visual displays around the training facility; in electronic materials (Guide to Apprenticeships for learners and employers); on its website; in curriculum delivery – teaching, learning and assessment; progress review meetings and broadcast announcements on the e-portfolio system.

Commitment to the policy will be monitored through:

- Annual self-assessment and development planning
- Employer and learner surveys
- Data analysis, including retention, achievement and progression
- Collecting and disseminating examples of good practice
- Investors in People review process and annual management review

STAFF TRAINING

Staff will be trained in the implementation of the policy in annual refresher updates. All staff are reminded about learner protection arrangements throughout the year during whole company staff communication briefings (6-weekly) and are encouraged to report any concerns they may have about changes in learner's behaviours to the designated safeguarding officer.

The management team and designated safeguarding officer will engage with the ESFA Prevent Lead Further and Higher Education (West Midlands) to ensure that local extremist intelligence is disseminated within the organisation.

LEARNING AND DEVELOPMENT

In order to fulfil the legal responsibility contained within the Prevent duty statement, C&W Chamber Training will provide a curriculum which develops both learners' and employers' understanding of the potential risks of radicalism and build confidence in their own ability to appreciate and respect their own and other cultures and to make clear judgements with regard to extremist ideology. This will be achieved through:

- enabling learners to develop their self-knowledge, self-esteem and self-confidence;
- enabling learners to distinguish right from wrong and to respect the civil and criminal law of England
- embedding equality, diversity and inclusion into curriculum
- promoting wellbeing and community cohesion
- providing a curriculum that builds confidence and knowledge to enable learners to make clear and judgements, through critical analysis and pro social values, challenging extremism and radicalism
- promoting external programmes, agencies or groups to support learning that support organisational and British values
- encouraging individuals to accept responsibility for their behaviour, show initiative and understand how they can contribute positively to society
- create resilience to extreme narratives through dialogue and discussion which promotes British values

LEARNER SUPPORT

We will ensure that staff have the information to take preventative action working with partner agencies, professionals, relatives and employers. This will be achieved through:

- maintaining robust support arrangements for learners with dedicated Training Advisors and Trainers
- ensuring learners have clear communication channels with appropriate support
- implementing anti-bullying strategies and challenging any discriminatory behaviour
- supporting learners at risk through robust safeguarding processes
- focussing on supporting groups of learners identified as higher risk
- effective response channels to report changing behaviours and areas of concern

MANAGING RISKS AND RESPONDING TO EVENTS

CWCCT will ensure that they are able to demonstrate an awareness and understanding of the risk of radicalisation, appreciating that this can change rapidly. This will be done by senior management through existing risk measures and the continual development of staffs' understanding and abilities to deal with any concerns through the appropriate channels.

This will ensure **CWCCT** is equipped to deal with and issues or concerns that may arise by:

- having a good understanding the nature and impact of extremism
- managing internal risk and external influences that promote potential risk
- remaining aware and respond to events in local, national or international news that may impact on learners
- ensuring measures are in place for early intervention to minimise the potential for acts of radicalism or extremism
- ensuring emergency response plans are in place plans if a threat or incident occurs
- embedding PREVENT into e-safety and responsible user policies

NATIONAL GUIDANCE AND STRATEGIES

PREVENT is a key part of the Government's strategy to stop people becoming terrorists or supporting terrorism. Early intervention is at the heart of PREVENT in diverting people away from being drawn into terrorist activity. PREVENT happens **before** any criminal activity takes place. It is about recognising, supporting and protecting people who may be susceptible to radicalisation.

The PREVENT strategy objectives are:

Ideology	responding to the ideological challenge of terrorism and the threat we face from those who promote it
Individuals	preventing people from being drawn into terrorism and ensure they are given the appropriate advice and support
Institutions	working with sectors and institutions where there are risks of radicalisation which we need to address

ALL STAFF WILL HAVE AN AWARENESS OF THE **PREVENT** AGENDA AND THE VARIOUS FORMS OF RADICALISATION TAKES IN BEING ABLE TO RECOGNISE SIGNS AND INDICATORS OR CONCERNS AND RESPOND APPROPRIATELY

IDENTIFYING CHANGES OF BEHAVIOUR

The following lists are not exhaustive and all or none may be present in individual cases of concern. Nor does it mean that vulnerable young people experiencing any of these factors are automatically at risk of exploitation for the purposes of extremism. There is an accepted view that a complex relationship between the various aspects of an individual's identity determines their vulnerability to extremism.

Vulnerability

Identity crisis: Distance from cultural/religious heritage and uncomfortable with their place in the society around them

Personal crisis: Family tensions; sense of isolation; adolescence; low self-esteem; Disassociating from existing friendship group and becoming involved with a new and different group of friends; searching for answers to questions about identity, faith and belonging

Personal circumstances: Migration; local community tensions, events affecting country or region of origin; alienation from UK values; having a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy

Unmet aspirations: Perceptions of injustice; feeling of failure; rejection of civic life

Criminality: Experiences of imprisonment; poor resettlement/reintegration; previous involvement with criminal groups

Access to extremist influences

- Reason to believe that the young person associates with those known to be involved in extremism
- Possession of distribution of extremist literature/other media material likely to incite racial/religious hatred or acts of violence
- Use of closed network groups via electronic media for the purpose of extremist activity

Experiences, behaviours and influences

- Experience of peer, social, family or faith group rejection
- International events in areas of conflict and civil unrest had a personal impact on the young person resulting in a noticeable change of behaviour
- Verbal or written support of terrorist attacks
- First-hand experience of racial or religious hate crime
- Extended periods of travel to international locations known to be associated with extremism
- Evidence of fraudulent identity/use of documents to support this
- Experience of disadvantage, discrimination or social exclusion
- History of criminal activity
- Pending a decision on their immigration/national status

More critical risk factors include:

- Being in contact with extremist recruiters
- Voicing support for extremist causes or leaders
- Accessing extremist websites, especially those with a social networking element
- Possessing extremist literature
- Justifying the use of violence to solve societal issues
- Joining extremist organisation
- Significant changes to appearance/behaviour

REFERRAL AND INTERVENTION PROCESS

Any identified concerns as the result of observed behaviour or reports of conversations to suggest that a young person supports terrorism and/or extremism must be reported to the named safeguarding person immediately. Where issues are raised by apprentices or employees, the matter will be referred to the designated safeguarding lead who will investigate the concerns before contacting the relevant authorities to escalate the investigation.

Where a young person is thought to be in need/or at risk of significant harm, and/or where investigations need to be carried out the designated Safeguarding person will refer to the relevant Child Protection Officer/Local Authority Work Related Team. However it should be noted that concerns of this nature, in relation to extremism, are most likely to require a police investigation (as part of the Channel process) therefore the designated safeguarding person will contact:

Warwickshire: Safer Neighbourhood Team, Leamington Police Station on 01926 684248 (Voicemail 11680)

Coventry: prevent@coventry.gov.uk

Balbir Sohal, Prevent Education Officer Balbir.sohal@coventry.gov.uk

Viv Brosnahan, Prevent Education Officer Viv.brosnahan@coventry.gov.uk

Channel referral process

Some concerns which are identified may have a security dimension to them. For this reason, it is important that liaison with the police forms an early part of all investigations. The relevant police force will carry out an initial assessment and, if appropriate, set up a multi-agency meeting to agree actions for supporting the individual. If it is deemed that there are no concerns around radicalisation, appropriate and targeted support will be considered for the young person.
